STM Soluciones Técnicas para el Mueble, S.L.

Toda empresa nace de una idea, una idea acerca de la FABRICACIÓN de un producto o la prestación de un servicio que permita satisfacer la necesidad de alguien, el futuro cliente. Cuando se tiene una idea relativa al desarrollo de una actividad empresarial, ya se ha dado el primer paso para crear una empresa; cuando aún no se tiene, lo primero que se debe hacer es buscarla. Pero la idea difícilmente se concretará en una empresa si no está apoyada en una actitud personal: la ilusión; ilusión y entusiasmo por crear algo nuevo, por iniciar una aventura que para algunos durará y marcará toda su vida.

Every company is born from an idea, an idea about the MANUFACTURE of a product or the provision of a service that allows satisfying the need of someone, the future client. When you have an idea regarding the development of a business activity, you have already taken the first step to create a company; when you don't have it yet, the first thing to do is look for it. But the idea will hardly materialize in a company if it is not supported by a personal attitude: illusion; illusion and enthusiasm to create something new, to start an adventure that for some will last and mark their entire lives.

En STM SOLUCIONES, la reflexión acerca de qué vamos a ofrecer al cliente supone pensar también en cómo cambiar el producto o servicio que ya está siendo ofrecido. Ello exige llegar a comprender con profundidad las necesidades y expectativas de nuestros clientes tanto presentes como futuros, pues sólo la empresa que conoce adecuadamente estas necesidades está en condiciones de poder ofrecer un producto que las satisfaga.

In STM SOLUCIONES, thinking about what we are going to offer the customer also means thinking about how to change the product or service that is already being offered. This requires an in-depth understanding of the needs and expectations of our customers, both present and future, since only the company that adequately understands these needs is in a position to offer a product that satisfies them.

En esta reflexión para conseguir diferenciarnos de nuestros competidores y gracias al apoyo de nuestros colaboradores (clientes, proveedores, personal...), hemos empleado toda nuestra creatividad e imaginación, pero considerando siempre la factibilidad práctica de estas ideas.

In this requires an in-depth understanding of the needs and expectations of our customers, both present and future, since only the company that adequately understands these needs is in a position to offer a product that satisfies them.

Servicio, atención al cliente, producto actual y un equipo humano profesional, son los 4 pilares básicos que hacen que esta empresa fundada en el año 2013 se mantenga en creciente expansión.

Service, customer care, current product and a professional human team, are the 4 basic pillars that make this company founded in 2013 keep growing.
